

SmartStream Account Payable's rich connections to the entire suite of Infor FMS SmartStream modules gives payables process full, fast, and accurate financial and operational information to help you do business better.

ACCOUNTS PAYABLE

DO BUSINESS BETTER.

In good business conditions and bad, effective cash management is profitable policy. When managers have a good handle on what amounts are owed to whom and when those amounts are due, they can make cost saving decisions with important bottom line results. Even when you can't increase your margin on sales, you can often leverage smart payables management to shave enough off costs to make a difference. The prerequisite to smart payables management is a smart payables system with the flexibility to suit your situation.

LEVERAGE EXPERIENCE.

Infor™ FMS SmartStream Accounts Payable (AP) combines a proven solution for advanced financial management with a world-class professional services organization boasting decades of experience in your industry. Our superior level of training, implementation, support, and service mean that your SmartStream installation will be tailor made for your needs and fully integrated with your other back office systems for maximum performance and flexibility. When you combine SmartStream Accounts Payable with your ERP, CRM, and business intelligence applications, you'll be positioned for success for decades to come.

GET BUSINESS SPECIFIC.

SmartStream Accounts Payable brings world-class functionality and control to your cash management system. With features that streamline and simplify the critical daily tasks that make sound financial management possible, SmartStream Accounts Payable helps managers stay abreast of critical cash positions to improve efficiency and profitability. SmartStream Account Payable's rich connections to the entire suite of Infor FMS SmartStream modules will give your payables process full, fast, and accurate financial and operational information to help you make better decisions and execute your business strategy more effectively.

SmartStream Accounts Payable improves your financial performance by:

- ▶ Improving your accessibility to critical financial data throughout your enterprise
- ▶ Streamlining your payment processes
- ▶ Adding flexibility to your payment functions

Infor FMS SmartStream Accounts Payable improves your entire workflow with its impressive range of powerful features. For example:

Integration—You get the information you need, when you need it, as well as superior data management, thanks to the tight integration between SmartStream Accounts Payable and the entire suite of Infor FMS SmartStream applications.

Drill-down capabilities—You can dig into the details of any transaction to improve auditing and increase the accuracy of financial reporting.

Flexible, personalized interfaces—You can easily customize SmartStream Accounts Payable meet your business requirements, without requiring changes to the base code. Users can see familiar screens, which helps them learn how to use the system's features quickly and easily.

The enterprise-wide integration between SmartStream Accounts Payable and other solutions within the Smartstream suite allows you to break out of the "silo" data structure that limits your choices, and instead enjoy a fully integrated system that helps keep you informed and execute top-level management decisions.

SEE RESULTS NOW.

The combination of real-time workflows and broad integration with features in the Infor FMS SmartStream suite allow your system to grow and support the expansion of your company. No financial management system exists in a vacuum; the more fully connected your accounts payable system is with the rest of your systems, the better positioned you'll be. For companies that plan to grow and adapt to the business conditions of the future, SmartStream Accounts Payable is a smart choice for managing accounts payable as well as the perfect complement and extension to the other modules in your Infor FMS SmartStream suite.
